4. RISKS

- 4.1. Any trading involves significant risks. Prices can fluctuate on any given day and you may experience increase or lose value in your assets at any given moment. Any currency, virtual or not, may be subject to large shifts in value and may even become worthless. There is an inherent risk that losses will occur as a result of buying, selling or trading anything on a market.
- 4.2. Digital Currency trading in particular has special risks. It is not backed by governments or other legal entities, or by commodities. Digital Currency is a unique kind of currency, backed by technology and trust only. Please note that Digital Currency is not backed by a central bank that can take corrective measures to protect the value of the Digital Currency in a crisis or issue more currency.
- 4.3. Digital Currency is an autonomous and largely unregulated. Traders put their trust in a digital, decentralized and partially anonymous system that relies on peer-to-peer networking and cryptography to maintain its integrity.
- 4.4. Moreover, Digital Currency trading is probably susceptible to various factors, including, but not limited to, irrational (or rational) bubbles or loss of confidence, which could collapse demand relative to supply; Confidence in Digital Currency might collapse as a result of unexpected changes imposed by software developers or others, a government crackdown, the creation of superior competing alternative currencies, or a deflationary or inflationary spiral; Confidence might also collapse because of technical problems, for example, if the anonymity of the system is compromised, if money is lost or stolen, or if hackers or governments are able to prevent Purchases from settling.
- 4.5. You should carefully assess whether your financial standing and tolerance for risk are suitable for buying, selling or trading Digital Currency.
- 4.6. Site Managers use banking providers in order to receive your funds and to make payments.
- 4.7. Our banking providers do not transfer Digital Currency, exchange Digital Currency, or provide any services in connection with Digital Currency.
- 4.8. With the exemption of 6.2% annual interest on purchased Digital Currency which Site Managers guarantee, WE DO NOT GUARANTEE ANY REVENUE FROM TRADING OR ANY OTHER ACTIVITY ASSOCIATED WITH THE SITE. IN LIGHT OF THE RISKS ABOVEMENTIONED, WHICH ARE NOT A COMPREHENSIVE LIST, YOU SHOULD CAREFULLY CONSIDER IF HOLDING DIGITAL CURRENCY IS SUITABLE FOR YOU DEPENDING ON YOUR FINANCIAL CIRCUMSTANCES.
